**Tom DeFalco : Comics Creators on Fantastic Four** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Comics Creators on Fantastic Four:

2 of 3 people found the following review helpful. Loved this book By Conner Kent This and Mr. DeFalco's book of interviews about Spider-Man are two of the best books about comics I've ever read. It's so nice to have someone who was involved with the creations interacting with his peers. I hope they do more books like this, even though I know the FF and Spider-Man were DeFalco's two longest-running series. 0 of 2 people found the following review helpful. great! By Rabobank For every ff fan! 1 of 1 people found the following review helpful. Excellent overview of the

seriesBy Steve JThis is a great book for long-time fans of the Fantastic Four comic book series. Nearly every era of the comic book series is covered with the exception of the "Heroes Return" era from 1997 (when Jim Lee was no longer working on the title) through 2001 (when Tom Breevort began as editor). The subjects of the interviews are honest. For example, Doug Moench is critical of his year's worth of stories. The interviews include a good mix of writers (Doug Moench, Mark Waid, and Roberto Aguirre-Sacasa), artists (Mike Wieringo, Keith Pollard, and Paul Ryan) editors (Tom Breevort and Ralph Macchio) and writer/artists (John Byrne, Walter Simonson, and Jim Lee). The classic era is represented by Stan Lee, Joe Sinnott and Roy Thomas. One of the earlier reviews laments the omission of several creators. The publishers acknowledge the omissions by stating that they ran out of space due to the length of the interviews included in the volume. This book is well worth the price and will be read more than once.

With the Fantastic Four movie poised to smash box office records this summer, the time is ripe for this in-depth history of the FF's comics career, featuring interviews with every major creator.

About the AuthorTom DeFalco is a comics industry giant. Formerly Editor-in-Chief at Marvel Comics, he is responsible for an astonishing body of comics work, including long runs both writing and editing. His most recent non-comics work is Titan's critically acclaimed Comics Creators on Spider-Man. He has also written non-comics projects for Dorling Kindersley.
