Elegant designs By Donna When Gloria says "complete" she means complete. There are so many projects in this book i wonder if i'll ever complete them all. She has some of the freshest ideas i've seen. Very elegant in the designs and for the most part, easy to follow instructions. A book for all those interested in the elegant side of candles. 6 of 6 people found the following review helpful. Wonderful Creative Book! By Shendel Schichvarger I received this book from , last week, and I am very impressed! Stunning pictures (which gives us inspiration), great ideas about displays, candles and candle holders. I don't think this is a beginner book... she gives basic information and some projects about making candles, but it is not very detailed. I think this is a book for intermediate and advanced candlemakers. I loved especially the recycling ideas, using old glass bottles, tin

cans and so on. This book is VISUALLY and CREATIVELY excellent, you just cannot stop reading and looking at it!
