It has wonderful color illustrations and detailed step by step instructions. Only a couple of times near the end of the book did I find missing steps, but by then, if you read the rest of the book, those steps would have already been imbedded in your head as something you would automatically do.1 of 1 people found the following review helpful. Good resource!By moonlightflowerI have not used this book yet, it was purchased because I was reminded of the nylon flowers I made as a small child. It I could make these flowers at age 10 any adult should be able to make them using these instructions.1 of 1 people found the following review helpful. love it!
