Yes it would have been perfect if the stitch pictures were in color but other than that I recommend it. Absolutely Awesome BookBy Tifani JonesI have done crafts over the years and some embroidery, cross stitch, crochet, etc. But Ive always wanted to learn Needlepoint. For those of you who have never done it, I cannot recommend this book enough. It has so much information in it that is mind boggling. Big pictures, detailed

instructions and how to use them and where. I am pleased with the book and the condition it is in (I ordered a used book). And it arrived in the mail promptly.
