This is a treasureBy Miss ElaineVa.I would love to make every quilt in this book and then snuggle up and have breakfast in bed. This is a quilt book that I just love to read and look at the beautiful pictures over and over again. Now, if I could just start sewing instead of looking at the pretty pictures.This is a treasure. It was recommended by a member of my quilt guild when I drooled on her show and tell quilt.0 of 0 people found the following review helpful. Love, Love, Love this book!By QuiltingartistI love this book. I have several Blackbird Designs quilt books and this is one of my favorites. I am already working on my fifth project from this book and I bought it in August. As with all their books, the instructions are perfect, templates full size. The photos are so inspirational! I love to hand applique and Alma and Barb are the best for inspiration, color and style. Also love the story thread throughout the book of the country inn and the cook and caretaker. Recipes look delicious! Thanks again, Barb Alma - another wonderful book for my collection. I have so many quilts that are from your books. I look forward to the next one!

Welcome to Blackbird's Country Inn. Come in, sit down and stitch with Barb Adams and Alma Allen. In addition to the lovely nine-block applique quilt shown in two different color ways, you'll find seven projects, including lavender sachets, a pin cushion and monogrammed pillowcases. Two pieced quilts, Sweet Thing and Country Charm, can be stitched together quickly for a gift. Bachelor Buttons and Shooting Stars are appliqued quilts that will win your heart. Henry, the gardener, and Anna, the cook, invite you to stay as long as you like. Anna has some wonderful breakfast recipes to share with you. So relax and enjoy yourself in this Country Inn where your applique stitches don't have to be perfect and it's okay if all your points don't match. It's the friendship that counts here.
