**From Hearst : Country Living Handmade Christmas: Decorating Your Tree Home** before purchasing it in order to gage whether or not it would be worth my time, and all praised Country Living Handmade Christmas: Decorating Your Tree Home:

3 of 3 people found the following review helpful. A Very Merry Guide By Jordan T. Brantley I bought this in a Goodwill outlet store and I haven't looked back. This guide is almost indispensable if you wish to add a homemade touch to your home during the most wonderful time of the year. It is what inspired me to take up crafts. Particularly handmade Christmas ornaments. One of the nice features is really a side note are the color theme of Christmas, Red green white, crimson and gold. Really useful information. One useful tip in the book is that in making a Christmas mosaic, use a tile nipper instead of just smashing it with a hammer. There is one inaccuracy though...when it says in the introduction that Christmas creeps in after Thanksgiving, that is not true, it comes barreling in after Halloween. But I digress.

Have a very merry decorative Christmas with more than 30 simple projects you can craft quickly just what you'll appreciate at that busy time of the year. Want a super centerpiece that everyone will admire? Here's a sweet one, out of

sugared fruit. Plus: holiday stars, balls, ornaments and more.
