Its smaller size makes it ideal to pack in a tote. Marsha knows her medium well. Lots of eye-candy, good instructions, lots of useful instruction.I am a dedicated crazy-quilter, too. Of all the books available on the craft, I would highly recommend this new book. Hers, plus Carole Samples' "Treasury of Crazy Quilt Stitches" are the two must-have books for any serious reference.0 of 0 people found the following review helpful. Amazing infoBy Sue

TheBest book I ever bought about a subject. Clear directions and illustrations. I can actually follow and do what is explained. Love the explanations about techniques and history of the subject. Beautiful examples of the stitches with directions, including for left-handed folks. Absolutely love this book. The wire bound pages make it easy to open so I can attempt each stitch.
