From Kalmbach : Creative Chain Mail Jewelry before purchasing it in order to gage whether or not it would be worth my time, and all praised Creative Chain Mail Jewelry:

2 of 2 people found the following review helpful. WonderfulBy DeeI am going to enjoy this book very much. Step by step directions with all the pictures needed to guide you. There is one project I will not be doing but really like, it entails a soldering station, whole new line for me, will keep with the stuff I am learning. The guitar pick pendant is going to be fun and easy to do. It is versatile and used unisex for any shape, but this is a great one for the guys especially if you have a teen to please. There is an idea given on how to make 3 chains into one (wide) one, another good one for guys. I like the fact this book does have many things that will work well for guys and teens, most jewelry

books lean toward the ladies and teen girls, imagination tweaking takes care of the little ones. I would recommend this book, I believe also that a beginner would be able to work this book. Buy it and start having fun.0 of 0 people found the following review helpful. Four StarsBy CustomerExactly as represented in description0 of 0 people found the following review helpful. Great book!!!By Cat LadyGreat book! It has very clear instructions with many pictures so that someone like me who's craft-disabled will be able to do most of the projects. Several projects included in book. Very pleased with my purchase!!

Following the success of Classic Chain Mail Jewelry from Kalmbach comes Creative Chain Mail Jewelry, featuring over 25 chain mail projects from BeadButton and Art Jewelry magazines. These projects employ a broad assortment of jump rings, traditional techniques and other materials to achieve modern looks. Easy projects focus on opening and closing jump rings, stringing and crimping, while a more advanced project requires soldering. The book is organized from easy to challenging projects for progressive practice for beaders of all skill levels. Keeping jump rings front and center, the book shows how to make a huge variety of designs from classic to contemporary.
