Memory Makers : Creative Paper Techniques for Scrapbooks (Memory Makers) before purchasing it in order to gage whether or not it would be worth my time, and all praised Creative Paper Techniques for Scrapbooks (Memory Makers):

0 of 0 people found the following review helpful. not very informativeBy haven555This book was a little repetative. Literally only howed a handful of "tricks" to do with the paper. Wish the description of the book would have elaborated on what it actually showed. It was very vague. Was hoping to get more ideas than just several examples of the same few techniques. Maybe if they had included less of the same tricks and I got a few more ideas than what little they covered I would have felt I got my moneys worth.0 of 0 people found the following review helpful. Nice BookBy dnajuchNice with some interesting ideas0 of 0 people found the following review helpful. Five StarsBy ginny michelsona colorful, usefull book, i use it alot. quickly sent

Fold it, tear it, cut it, transform it.
