**Marina du Plessis : Creative Scrapbook Piecing** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Creative Scrapbook Piecing:

Creative Scrapbook Piecing with Marina du Plessis is a collection of scrapbook layouts created with little other than paper. Each of the 60 full-color layouts includes templates of the frames, letters, titles, tags, envelopes, etc., as well as the templates and easy-to-understand instructions for constructing the three-dimensional figurines featured on the layout. The elements provided may also be used separately to create your own layouts. If you prefer a simpler style, some of the elements may be replaced with additional photographs or journaling. Either way, you will find ideas and inspiration, whether you are a novice scrapbooker or a well-seasoned scrapbooking addict.

About the Author MARINA du PLESSIS is a full-time teacher and is the author/illustrator of a number of books in the field of child education, childrens fiction and childrens bible books. She has been scrapping for a number of years.
