Sandi Genovese : Creative Scrapbooking: Over 300 Cutouts, Patterns Ideas to Embellish Enhance Your Treasured Memories before purchasing it in order to gauge whether or not it would be worth my time, and all praised Creative Scrapbooking: Over 300 Cutouts, Patterns Ideas to Embellish Enhance Your Treasured Memories:

29 of 29 people found the following review helpful. Great Book! By A Customer I'm a beginning scrapper who was overwhelmed by the pages I'd seen in the scrapbook magazines. A friend recommended this book to me and boy did it help. The book is broken down by technique, which is wonderful. I was able to create good looking pages just by following the easy directions. 0 of 0 people found the following review helpful. Five Stars By Customer Perfect just what I wanted! 0 of 0 people found the following review helpful. happyscrapper By Barrie J. Stanton awesome book! colorful, imaginative, creative. plenty of great ideas that you can incorporate into cards and books. this will give me hours of enjoyment scrapping and cardmaking.

Fully illustrated throughout in colour An innovative craft idea which is eminently adaptable

.com Scrapbookers who are big fans of die-cuts will find ideas galore in Creative Scrapbooking by Sandi Genovese. A noted designer and the creative director for the Ellison company, Genovese has compiled dozens of scrapbook-page designs based around Ellison paper die-cuts. But for those who don't want to go to the expense of purchasing the ready-made cutouts, she provides 26 pages of patterns that can easily be traced or photocopied to re-create any project in the book. Relying on the cutouts to define album pages does tend to give them a mass-produced air rather than a unique look, but the designs are fun and colorful, and the good illustrations and directions make these easy projects even easier. The final section applies these scrapbooking methods to other items, including greeting cards, invitations, and a mobile. --Amy Handy About the Author The author lives in Lake Forest, CA.
