1 of 1 people found the following review helpful. Perfect gift for a beginner! By Iwakuralain16I recently bought this set at Costco and absolutely love it! I have been slowly learning to crochet but have not had the time to practice every night. I have watched some YouTube video, which are a great way to learn, but they are not always convenient. The instructional cards are very clear and easy to understand. I love the visuals included too. There is one card in particular that tells you how many single stitches you have to make to get to 4 inches when using various yarn types. I would highly suggest getting this set for anyone you know that is interested in learning to crochet. I hope to learn how to knit next and plan on buying the visual deck set for knitting.

Crocheting has become one of the most popular pastimes. It's one of the easiest and least expensive ways for people to develop and create their own unique styles and wear their own creative expressions. Scarves, hats, sweaters, bags, earrings, socks, shoes, bookmarks--you name it, people are crocheting it. Crocheting has even been used in the popular street art of yarn bombing. And since upcycling has become so popular, you can use yarn, or any fine, flexible, continuous material that you can wrap around a hook--even plastic grocery bags!-- The perfect set to start exploring the anything-goes world of crochet.- Learn all the essentials with this one compact, deluxe set. Crochet: Visual Deck Set is wonderful for creating clothing and accessories to keep or give as gifts.
