*Crocheted Softies* is Stacey Trock's latest book. She has designed 18 adorable animals from around and out of this world. *Cuddly Crochet* was her last book that covered 10 stuffed animals and baby items that matched. The book opens with "Give a crocheter a pattern and she'll make an exact copy of the sample in the pattern. But teach a crocheter how to use a pattern and there is no stopping her!" So true. Stacey will show you how to work the stitches through step by step photographs. You will also learn about fibers and yarn substitution. The fibers used in the stuffed animals are "slightly outside the box". They include yarns that are organic, undyed, banana silk and from yarn companies that give back to communities that are in need. The results of this book are bright, fun loving stuffed animals. You will create your own menagerie from start to finish with Stacy's help. Which one will you crochet first? --Paula Moliver for the Hartford Knitting Examiner
