Turn your resident amateur sewist into a master of paper craft with *Stitched Paper Art*. Sewing machine novices or not, kids will build their skills while creating bright, fun art. Varied projects include headbands and necklaces, bookmarks and bunting, and picture frames and purses. Mixing and matching designs and colors is part of the fun. The simplicity of the process practically guarantees that kids can finish a project in just one afternoon. And since paper is much more forgiving to work with than fabric, it gives them the confidence necessary to complete project after project!
