Outstanding Reference Book By DaveI got this for my 9 year old who is really into WWII. He loves it...lots of pictures and illustrations. The reading level is just a bit above him though...but that doesn't seem to bother him too much. 1 of 1 people found the following review helpful. Great Book - A Must Have. By Jeremiah Davis Outstanding book depicting the uniforms and equipment of the US paratrooper in WWII. A must have as a superb research book.

On the night of 5- 6 June 1944, US paratroopers of the 82nd and 101st Airborne Divisions were dropped over the Cotentin peninsula, on the western part of the Normandy beachhead. The uniforms, equipment and small arms of these men immortalized by Band of Brothers are presented here in the sharpest detail, as well as their orders of battle and insignia. Illustrated throughout in full color. "Another treasure from ... Histoire Collections ... a superb color photographic collection" Military Trader, May 2005
