By Rheachel Ross This is an amazing way to learn or create new deco den stuff 1 of 3 people found the following review helpful. BEWARE!!! By Ellie behm BEWARE IT IS JUST A BOOK! I had thought this was a bunch of cute little cabochons and a couple small things to decorate. Even though I was very disappointed with how I got a book instead, it is still a very nice thing to have when looking for decoden inspiration.

The Decoden look is over-the-top sparkle and embellishment, and the aim is to be as decadent and whimsical as possible. The embellishments range from crystal pave to bedazzled Hello Kitty figures to faux icing and tiny cabochons in the shape of anything from a robot-bear to a chili dog. Electronic devices are pretty nondescript on the outside for the most part, so decoden-covered cases serve the dual purpose of protection and self-expression. This booklet offers the basics of using decoden and twenty projects: Beach Comber Phone Case. Sweet Somethings Mini Chalkboard. Girly Glam Compact Mirror. Chocolate Delight Phone Case. Pretty In Pink Trinket Box. Rainbow Garden Photo Frame. So Chic Sunglasses. Cherry on Top Clutch. And more
