LOL So I think it's great... the photos could be better but the publisher had no budget and we did the best we could. If any of you reading this were fans of Bewitched, Kasey, my co-author, played Louise Tate, Larry's wife on that series. She's been gone now for 4 plus years (and 5 Christmases) as of this writing and I miss her deeply but we sure had a blast crafting these books.She and I also did a pilot based on our books just before she got sick with throat cancer, it's called Hands on Holidays. Sadly, due to her illness, we didn't get picked up but I still hope to do a new show based on them.The ideas are timeless and a lot of fun and I have million more where those came from! LOL.If you buy it I hope you enjoy it!Mark...0 of 0 people found the following review helpful. Three StarsBy Priscilla M. Earlsnot much in book for variety....disappointed0 of 0 people

A splendid collection of attractive Christmas projects to decorate the home during this festive season, from the rustic nostalgia of a Country Cabin Christmas to the tradition of a red-and-white Candy Cane Christmas. Step-by-step instructions show how to create a children's table featuring whimsical toy soldier designs on a tablecloth, centerpiece, curtains and pillows, as well as a winter wonderland with snowmen and cone-shaped trees. The festive projects are beautifully photographed in vintage home settings.
