**Venn : Decorating with Wild Flowers** before purchasing it in order to gage whether or not it would be worth my time, and all praised Decorating with Wild Flowers:

0 of 0 people found the following review helpful. debated between 3 or 4 starsBy martiAlthough I admire the skill that Cynthia Venn has with gumpaste, I find it difficult to re-create what she has done. If she has allowed more space for the illustrations, or even better had used pictures this book would move to a 5 star. BUT I find that I have to wade through the directions numerous times to figure out exactly what I need to do. I am not a beginner... but found that her directions combined with another authors directions and pictures was what I needed to duplicate the work.
