Miranda Innes : Decorative Frames before purchasing it in order to gage whether or not it would be worth my time, and all praised Decorative Frames:

This second title in the craft book series covers a range of ideas for making frames, from classic gilded photograph frames and papier mache mirror frames to collages incorporating found materials. Step-by-step photographs show how to make each project and shots of the finished items in a wide range of decorative settings inspire you to find ways of incorporating them into your home. Most of the frames are easy to make and advice is given on constructing frames from scratch and decorating existing frames with special touches.
