Lots of breeds, well drawn plus bonus pagesBy Summers LoveThis review is for the Doodle Dogs: Adult Coloring Books Featuring Over 30 Stress Relieving Dogs Designs.This dog coloring book is way fun. In the intro to the book, there is a list of what dogs are featured in the book and their breeds. I think the first section of the book features artwork from the same artist. They are absolutely beautiful and really lend themselves to coloring. The lines are strong and there are no blurry details. These designs are

really made for adults as its VERY intricate and intensive. About 2/3rds through the book, there is a page that says Bonus 10 designs The coloring pages there forth must be from different artists as they all have totally unique styles to the front of the book. They are fun and a different change if you want to color something new. Again, they are very detailed and intense like the beginning of the book, so this is definitely a book for the adult!The book comes in a glossy soft cover binding. The pages are thick paper but not too thick that it adds bulk. Just nice enough that markers would not bleed through. I find it easier to photocopy the pages or use an exact-o blade to cut the pages out before coloring. I can also flatten the book if I want to color in it, its just more relaxing for me to remove the pages. The pages are also printed 1 design per page so you arent compromising back and front when you color. The back of the book also has a nice letter that gives a web address to more free coloring designs to print online if you buy these books. Overall, 5/5 stars for this fun coloring book!!If you have any questions please post below and I would be happy to answer! I received a free promotional sample of this item for my honest and unbiased review.9 of 10 people found the following review helpful. dislikeBy Sue G. DebordNot thrilled with these books. Prefer Creative Haven books. These pages don't come out for easy coloring. The detail is either too busy, or sort of ridiculous...like showing dogs teeth like they are smiling?0 of 0 people found the following review helpful. and really like the bookBy Pat K.This is the other book I ordered. I have two pugs, and really like the book.
