Lots of Great Coloring Fun with Intricate and Wild DesignsBy iiiireader[[VIDEOID:c734236a865b9612dbda343c254aafea]]Doodle Fusion is a really interesting coloring book. It is based on the line artwork of artist Lei Melendres. The Zifflin's color books seem to be exploring the far edge of coloring opportunities.The 50 pages of designs in this book are made up of a multitude of small hand drawn images of all sorts of things, including dragons, robots, skeletons, animals and much much more. For someone who really likes to color small and elaborate designs and wants something really different, this line of books, and this one in particular may be perfect.Each design is printed on one side of the page. The pages are not perforated but there is plenty of room to remove a page with a pen knife if you choose to do so. All of my markers and gel pens bleed through the page readily. I would place a piece of chipboard or heavyweight paper or two under the page I am working on to keep ink

from seeping through. 15 of 16 people found the following review helpful. Great book but for one thing
By Deekie I like this book. It has nice designs in it but again, as with a couple of other books I have purchased from , have noticed that using a Prismacolor blending pencil on the lighter colors is causing the black ink from the lines to mix in and look unsightly. Cheap paper? Cheap ink? I don't know what the answer is but I have 5 different Prismacolor blending pencils so it's not the pencil. Not having this issue with books I have purchased at book stores. A bit disappointed

By Ionia Froment If you are a colour book nut and maybe have a few issues with masochism, this is the perfect book. It is difficult to tell where one thing ends and another begins in this thing and there is a lot to keep you busy for hours (days, weeks...) The images are interesting enough that they are fun to look at even when you are not trying to choose a page to work on. Paper quality is what it is as this is out of the control of the artist in this particular publishing method, but the pages are single sided. There is a lot of creativity here and you can tell the artist had people who love to colour in mind, as there are not many dead spaces in this book where you can't colour it in yourself. I thought this book was a lot of fun and am happy to recommend it to others who enjoy extreme coloring.

Introducing Ziffline's latest adult coloring book in the Doodle series, Doodle Fusion. Featuring the dynamic and innovative illustrations of Lei Melendres. His work is inspired by digital culture, intricate patterns and the supernatural. Lei has crafted 50 intensely detailed pages for you to immerse yourself in. This anti stress coloring book allows you to unwind by combining challenging coloring with a sense of intrepid and creative adventure. Get out of your work headspace and into the world of Doodle Fusion.
