**Marianne Stern : Early Glass Of The Ancient World** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Early Glass Of The Ancient World:

1 of 3 people found the following review helpful. You don't get what you pay for. By richard gabell was looking forward to receiving this book. The copy I received is in German. There was no indication on the site that the substitution of a German book for an English one would happen. One star because the images in the book are marvelous.

Contributions by Birgit Schlick-Nolte. Text by Marianne Stern.
