4 of 4 people found the following review helpful. All in one easy scrapbooking kit! By Caeles I hate day-to-day calendars because you just waste the pages but this one is so cool! My mom gave it to me for Christmas and I'm having so much fun already. This calendar is brilliant and really a value too, given the cost of background and texture papers. I have done scrapbooking and own tons of supplies tools, etc... but it's so messy and time consuming. I have a baby and hadn't even started his baby book because I was intimidated by the task. With this calendar I have beautiful instant borders and design elements ready to go. It's just a photo a day! Easy to keep up with. I just keep my 12x12 paper trimmer, scissors, tape and glue sticks on my desk. I cut out the interior then I have a frame and design element. It's already coordinated for me too. I have a page in minutes! Scrapbooking is fun and easy again. I would buy this calendar next year!
