Julie Hickey, Carol Wallis, Polly Pinder, Candida Woolhouse, Ann Cox : Encyclopedia of Cardmaking Techniques before purchasing it in order to gage whether or not it would be worth my time, and all praised Encyclopedia of Cardmaking Techniques:

0 of 0 people found the following review helpful. Five StarsBy Alpha Papanice crafts book, worth the purchase cost0 of 0 people found the following review helpful. Good for BeginnersBy Zoe LondonThis book covers many different techniques, but some of the photographs seem dated. It's good for beginner card makers as far as learning techniques.2 of 3 people found the following review helpful. great for ideasBy RDCI really liked this product, it gave lots of ideas and enough instruction to try them out. Some of them I liked so well that I went on to buy more in-depth books (such as Iris folding). Highly recommend for folks who are tired of cards that are just rubber stamped or simple cut-outs. Each section is authored by a different person who seems to be an enthusiast in that technique, it is easy to follow-up with more information by seeking books by the chapter authors.

This new cardmaking compendium comprises material from the following 18 titles in the Handmade Greetings Card series: Punched Cards, Embossed Cards, Eyelet Cards, Glitter Cards, Metal Wire Cards Polymer Clay Cards, Silk Ribbon Cards, Card Thread Cards, Quick Parchment Cards, Glass Painted Cards, Tea Bag Folded Cards, Peel-Off Cards, Rubber Stamped Cards, Watercolour Cards, Beaded Cards, Quilled Cards, Three-Dimensional Cards and Iris Folded Cards.

"Learn how to make cards using punches, eyelets, beads, peel-offs, glass paint, polymer clay and more!" MyShelf.com
