**Jeff A. Johnson : Everyday Early Learning: Easy and Fun Activities and Toys Made from Stuff You Can Find Around the House** before purchasing it in order to gage whether or not it would be worth my time, and all praised Everyday Early Learning: Easy and Fun Activities and Toys Made from Stuff You Can Find Around the House:

0 of 0 people found the following review helpful. This book is full of great toys that can be made with items around the ...By Kristin BrutsmanThis book is full of great toys that can be made with items around the house. Each activity is also followed up with suggested variations to continue the fun. I want to make everything in the book! I know my kids and I would have so much fun with it all!0 of 0 people found the following review helpful. Three StarsBy Customernot exactly as expected, but okay.1 of 2 people found the following review helpful. A 'must' for both

education and general-interest parents' collections. By Midwest Book Review. Parents and teachers who want to choose and direct activities to promote natural learning will find EVERYDAY EARLY LEARNING to be a fine pick. It focuses on the activities that reinforce education, packs in over seventy-five ideas to get children exploring with common household items, and includes activities to build skills in literacy, math, science and social areas. The easy, fun activities with toys make this a perfect pick for parents, caregivers and teachers alike, and makes it a 'must' for both education and general-interest parents' collections.

Children can pluck an elastic band to learn about the vibrations that create music, or they can bake a cake to learn measurement and reading skills. Everyday Early Learning provides a myriad of ways to use everyday items for great early learning opportunities. For each activity, the book lists an age range, materials, step-by-step instructions, and possible variations. All are inexpensive and allow children to learn without much adult involvement. These projects will help children develop skills in language and literacy, math and logical thinking, science and problem-solving, and art and creative representation, as well as social and physical skills.

About the Author. Jeff A. Johnson has more than 18 years of child care experience. A former center director, he operates a family child care program and is a board member of the National Association for Family Child Care. He is the author of several Redleaf Press books and presents at conferences across the nation.
