Joyce Spencer : Fabulous Framing (Milner Craft Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Fabulous Framing (Milner Craft Series):

Display your most cherished photos, mementos, and images in just the right frames for them--by making the frames yourself! Design a frame to suit your dcor, your photo, or artwork, whether it calls for Early American or Native American, rustic or fine art. Illustrated instructions cover 24 different paint techniques and finishes--including marbling, antiquing, stressing, and gilding--explain the elements of interior design, and show how to create both basic

and gift versions of each frame style. You get a choice of 29 different frame projects, all using accessible, affordable materials, and ample inspiration to cover all your decorating or gift-giving needs.

From BooklistIt is true that a frame can make (or break) a picture, and it can even enhance the value of a photograph, illustration, or drawing. Australian folk artist Spencer applies her sophisticated design perspective to frames we can all craft and use without relying on expensive equipment or needing years and years of experience. In fact, forget the woodworking tools; all that's needed are ready-made frames, paints, brushes, and some common household items and natural objects (for instance, sponges, feathers, and an index finger or two). Words are her weapon; the only illustrations that accompany any of the 24 different techniques and finishes and the 23 projects are color photographs of the completed piece.
