The Perfect Book for Hours of Fun in NatureBy VickyThe biggest rule in fairy house building: "fairy houses must be made from materials found in nature".This sweet book is attractively arranged into nine sections that will take you and your little fairy lover from scouting for just the right place for your fairy house to gathering materials from nature, building it and then attracting fairies. Cute. It encourages children to explore nature, to plan, to create charts, drawings, organizational sketches. It shows them how to make stained glass windows for their fairy houses using twigs and sea glass, and how to expand on their house once it is finished.It's printed on wonderful card stock paper with large and detailed photos. and it's the perfect size for little hands and laps. About 7" by 8". I love the poems before each chapter, too.It's a thoughtfully created book that my grandchildren and I will have hours of fun with.2 of 2 people found the following review helpful. GoodBy NanaGPMWould like more pictures and less fairylore. Good book for fairy lovers.0 of 0 people found the following review helpful. Pack your bags "Fairies"....a new home is in the worksBy Shopper girlI ordered this for my granddaughter for Christmas, it is such a cute book! She loves the outdoors, and has made a very cute fairy house in a

flower pot. They live in a wooded area, so I know this book will give her a lot of creative ideas. The book is not a large size book, but it is very nice in the care of photos and general treatment of the subject matter. Any young lady would love this, and maybe some nature loving young boys.

A fun craft and lore book whose main focus is a step-by-step guide to how to build a fairy house, what tools and materials to use, and many ideas on different details you can add to your fairy house. Also included are bits of fairy lore, fairy dos and dont's, fairy wisdom, and other fairy crafts and activities. This book will be heavily illustrated with hands on photos of fairy house building, and photos of steps for some of the specific details. Fairy House are spreading beyond the coast of Maine and becoming a fun and popular subject for people around the country. This book will be a very fun hands-on how-to book that will be popular with parents looking for something whimsical and creative to do outdoors. It will also have great pictures, stories, and activities that will capture the imagination of a child. Written for children, or anyone with a child's heart.
