It has child-friendly and nature-based instructions that are fun to read aloud. The photography is also wonderful, with several examples to inspire little builders and enthusiasts. Scattered throughout are fun tidbits like poetry and recipes for sweet treats to eat yourself or share with the fairies. The seasonal format is also very inspirational. Love this book! ETA: This book does not teach how to make dollhouse furniture out of natural materials. There is no glue, no miniatures, etc. It is more of an elemental view of the fairy house concept, creating imaginative dwelling places out of wild-gathered materials. It's the process of building the houses that creates the magic, not necessarily the finished product -- which is meant to be left to the fairies! ;) 0 of 0 people found the following review helpful. By Nancy So glad I have this to look forward to looking at the pictures and new ideas to make nature work for me. 0 of 0 people found the following review helpful. Five Stars By Meghan M. Love this book! Full of many wonderful ideas!!!

Fairy Houses All Year celebrates the year-round pleasures of fairy house building. Through the use of seasonal varieties, kids and families can engage in this natural and creative endeavor through all seasons. Activities and materials found in each season are highlighted throughout the book. For example, fall fairy houses feature vibrant colored leaves, pumpkins, and late blooming flowers. Winter fairy houses are built using snow, ice, old birds nests, or the dried husks of milkweed and seed pods. In spring, fairy houses become abundant with early blooms, bare branches, and lots of mud! Summer fairy houses are perhaps the most decorative because choices for the summer fairy house are boundless. Filled with color photos, snippets of fairy lore, helpful advice and instructions, and lots of information about nature, Fairy Houses All Year is the ideal handbook for crafting fairy homes no matter the season.
