The diagrams were most helpful and made projects quick and easy. So far the toys have held up well to my three little girls.0 of 1 people found the following review helpful. Not worth the troubleBy LindaThis pattern has many mistakes in thread counts. The bases do not fit together, the top deck is larger than the bottom base leaving the castle crooked on the left backside. The trim pieces do not match up.Steps have been omitted. It is the worse pattern I have come across in over forty years of crafting. How someone gave this nightmare a 4 star rating boggles the brain.

Enchant your favorite princess with her very own Fairy Tale Castle. This magical creation - including furniture and a carriage - will provide her with hours of make-believe fun! There's even a royal wand and a crown for her to wear

while she oversees her kingdom. Stitched in pink and purple, the plastic canvas castle features a two-story central building with an arched drawbridge door, twin towers, and latticed windows. The exterior walls are landscaped with flowering shrubs. Furnishings include a round table with chairs, thrones for the king and queen, a standing mirror, and a four-poster bed with curtains. The castle is approximately 24 x 7 x 14.5. The carriage is 8.5 x 5 x 8.
