This practical treasury of imaginative stained glass designs incorporates a host of fantasy figures. Attractively displayed in circular, oval, and rectangular configurations are 69 striking black-and-white images of delicate fairies, fire-breathing dragons, half-human figures, a unicorn, phoenix, and other fanciful creatures. Enhanced with flowers, clouds, and detailed backgrounds, the easy-to-use patterns are not only ideal for window panels, mobiles, and lampshades but also will also work well in wall hangings, needlework projects, and as dramatic graphics for a variety of print assignments. Fantasy buffs and hobbyists alike will delight in the choices.
