However, this book has excellent patterns / projects for birds that I think those who don't like to applique or want a faster way to achieve these designs will truly enjoy. Directions are easily understood and implemented. TIPS: (1) If you are new to paper piecing, try using BATIK fabrics that have no right or wrong side. This helps you to avoid using "Mr. Ripper" when you place your fabric the wrong way against the paper piecing pattern. (2) Use a two-ply thread like Aurifil Mako 50 wt (Aurifil 50 wt Taupe is my color preference for all piecing) and a thinner needle 75/11 or 70/10 sharps. These help eliminate bulk especially with the very small pieces.2 of 2 people found the following review helpful. What a great book !By Berta DoraI love

birds and my mother loves quilting. So I got her this book. The birds in the book are look just like in reality, I am impressed how natural paper-pieced birds can look. The instructions seem simple. I like how you can use the patterns for a large number of projects, pillow cases, tote bags, quilts,... Generally, there is always at least one pattern per book that I dislike but this book is just great, all patterns are fantastic. 1 of 1 people found the following review helpful. Five Stars
