Corinne Lapierre : Felt Christmas Decorations (Twenty to Make) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Felt Christmas Decorations (Twenty to Make):

Could have had more and better templates By RickDeckard The ideas for the Christmas decor felties and items are just so cute but the templates at the end of the book are REALLY small and stingy. I've had better books on this. There are no pictures to go alongside the step by step instructions, but the instructions are very careful. I would also have appreciated if there were templates for the larger projects, even if some of them seem just basic. I don't want to have to measure after already having to enlarge/photocopy the other patterns. Unless the item uses a half or full sheet of the standard felt sheet size, then I'd like to have a lot more than was offered. I make these with kids and templates just make it easier. 0 of 0 people found the following review helpful. This is a

wonderful little book for some really cute felt craftsBy BATBFanForLifeThis is a wonderful little book for some really cute felt crafts! The projects are cute and not hard at all. Really pleased with this!14 of 15 people found the following review helpful. Felt Christmas DecorationsBy Up North GirlCute little book, full of simple projects that can be sewn fairly quickly, some by hand---good T.V. travel work!Some of the projects have a traditional Swedish look.

Here are 20 gorgeous felt Christmas decorations, all in a fresh, contemporary style and suitable for sewers of all abilities.

Oct/Nov 13 20 fabulous little makes for you to have fun with and make some gorgeous Christmas decorations. Easy to make, even if you are new to sewing, and as felt is so forgiving, some of these patterns could easily be made by younger members of your family. From Christmas Pixies to some adorable Christmas Stockings, this is ideal to make your Christmas more 'homemade'. Templates are provided at the back of the book but just a word of warning, they need enlarging before you can begin so if you were going to choose this book as a stocking filler for someone, I would go to the trouble of enlarging the templates and enclosing them as well - you'd be loved forever! * Fabrications * Oct 13 If you are struggling for stocking fillers, this is a great series of books for crafters from Search Press. There are varied titles, each giving twenty projects. The books are small, concise and might just spark off a new interest or rekindle an old one, and will give plenty of ideas. Perfect for anyone who loves to make things. This book includes cute makes to brighten up your Christmas tree, table and home. Delightful angels, toy soldiers, gingerbread men and more can hang on the tree. Create a felt garland or pot and basket covers. I love the reindeer and the snowflake decorations. This is Christmas. * Karen Platt Yarnsandfabrics.co.uk/crafts * Sept 13 Make a start on your Christmas decorations with these fast and fun felt fantasies. Unbreakable, simple and modern they are sure to withstand the rough and tumble of the festive season better than traditional glass... The Scandinavian theme is spot on at the time of publication, so draw the curtains, put on one of their popular detective series and get crafting! Muted gray, red, white and pale blue is the core palette for these creations and the theme continues with birds, elves, reindeer (my favorite) and decorations of embroidered stars and snowflakes. There are also old favorites such as gingerbread men, toy soldier and angels as well as a clever woven basket, pot shaped like a jester'sjester's hat, felt name tags, letters to tuck small gifts into and the inevitable advent calendar, here shown as fashionable bunting. Each project consists of a whole page photograph plus a page of instructions, materials and tools. The lists of tools are a very useful feature; it is easy to compile a shopping list from materials used in a project but also easy to forget what you need to make the item. All the tools are things most people will own anyway and the main material is the felt itself, plus stuffing and thread. Children can attempt many of the items. - I have memories of being eight and embroidering a felt bee, - so families and groups can craft together. Maybe Dad can have a go at actually making felt by shrinking an old jumper in a washing machine....There is nothing quite as special as home made decorations at Christmas, and here is a great collection of them that cleverly managings cleverly to avoid merely rehashing what can easily be imagined. * Myshef.com * October 2014 Explore the wonderful world of felt by checking out a copy of this book which features 20 fabulous designs for the holidays. Easy-to-sew, modern, and sweet designs highlight ornaments, decorations table designs and gift giving. We loved the Letters to Santa, Little Reindeer, and Bird of Peace designs. Simple embroidery knowledge is needed when using whipstitch, straight stitch, and French knot. * Craft Ideas *About the AuthorCorrine Lapierre is a former fashion designer and started her own craft business that sells an expanding range of craft kits and patterns designed for adults and children.
