Wineland My son's preschool/kindergarten teacher had this book and we made some of the toys in it during a parent/toddler class I took with my daughter. It made for wonderful memories and both my kids still love to play with the things we made. Now my son is 8 and wants to make things himself so I found this book. We've already started making balls and having a blast. I just wish it was easier to find true wool felt instead of polyester. But we are making do. The directions are really straight forward and it's such a joy to make simple things as a family that get hours of play time later. 0 of 0 people found the following review helpful.
