My son, who isn't in love with school work, first thought this book sounded like it was going to be boring. That was until he read the first couple of pages. Now, we have spent the last three hours solving the codes in the "training" section of the book. He is HOOKED!He's doing "school work" and doesn't even know it! He's reading, writing, and problem-solving... and he's loving every second of it. On top of that, I am enjoying it and we're doing it together. I cannot thank the author

From the internationally bestselling creator of Wreck This Journal, a collaborative creative journey where you become the author...One dark and stormy night, author Keri Smith found some strange scattered pages abandoned in a park. She collected and assembled them, trying to solve the mystery of this unexpected discovery, and now she's passing the task on to you, her readers. Your mission is to become the new author of this work. You will continue the research and provide the content. In order to complete the task, you will have to undergo some secret intelligence training, which is included in this volume. Since no one knows what lies ahead, please proceed with caution, but know...this book does not exist without you.
