No step by step photos even show where the crochet hook is inserted to do the stitches....it's presented as if the crochet edge appears magically with a crochet hook attached to one bit. Not useful at ALL. I crochet well....I'll just have to make it up myself but this book is not helping. Perhaps it does a better job with other finishing techniques but the crochet option was really the only one I'm interested in.6 of 6 people found the following review helpful. Fabulous reference book for every rug hooker!By Teri72I would highly recommend this book for

learning how to finish your rugs or to keep on hand as a reference. The pictures are so helpful! I took this to a local office supply store and had it spiral bound. I am now able to keep the book open to the page I need to look at as I finished my rug. Every rug hooker should have this book in their library. Keep calm and hook on! 3 of 3 people found the following review helpful. Finally, A New Finishing Book!! By Terry Tanner This book is a MUST resource for rug hookers.
