Gorgeous Photographs of Amazing Artwork By Radhastami Newsom Love Dona Meilach's books on metalwork. She has a wide selection of artists, with many styles. Love the glossy photos, the whole thing is eye candy

Here is the first book that focuses on unique custom-made fireplace accessories as works of art by talented modern

artist blacksmiths. Over 400 ideas for unusual fireplace designs reflect historical styles from Renaissance to Post-Modern. You will be amazed at the infinite effects that can be wrought from a bar of metal between the hammers and anvils of more than 100 master artist blacksmiths from nine countries. You'll learn to appreciate the forms that are used, from scrolls to carved animals, and to recognize their texturing, unusual handles and hinges, supports, and more. Fire screens, hoods, doors, andirons, grates, tongs, pokers, shovels, brooms, and their stands emerge as significant decorative items in today's homes. This is also a wonderful sourcebook for homeowners and designers seeking original art for their homes. You will marvel at the artistry, variety, and craftsmanship.
