**Quarto Publishing : Five - Minute Candlemaking** before purchasing it in order to gage whether or not it would be worth my time, and all praised Five - Minute Candlemaking:

0 of 0 people found the following review helpful. Waste of time and moneyBy Erika WilsonThis kit is appropriate for a child with supervision. Nothing in the booklet nor the kit can be completed in 5 minutes. Title is completely misleading. There should be a disclaimer that this is a "stocking stuffer" gag gift.

Last year's launch of the 5-Minute Kit series was a big hit. Readers loved the lineup featuring everything from fitness to crafting fun - all without investing loads of time or money. To top it off, the kits are just the right size for gift giving. This clever kit includes a 32-page booklet introducing readers to the basics of candle-making creativity and comes with a mold, wax, and wicks for readers to make their own. Good fun with practical results.
