Actually, because I am very serious about becoming a Florist I thought that this book would have much more detailed and professional information since reading the first book that I had read. Don't get your hopes up too much.

The 'how to' manual for everyone interested in pursuing flowers as a career or wanting to know how to arrange flowers for their own special occasion. In step by step guides the reader is taken from the basics of wiring techniques through to more advanced floristry design work. In simple logical stages with the aid of colour photography, line drawings and

expert tips, the reader will enjoy entering the fascinating world of the professional florist.
