Especially when it comes to trinkets and flowers. Some people love it and have the talent for it. I do not. When I purchase a book on a subject I like

the author to be knowledgeable and a teacher on the subject. Such is Judith Blacklock. Flower Arranging (Teach Yourself) is a true educational book that teaches the basics of beautiful and astonishing simple flower arranging techniques. In this book she gives descriptions, photos (color and black and white), and she breaks this complicated process, for me at least, of flower arranging down step by step to give a better understanding of how it is done, with beautiful results. Although there are not many color photos which some people need, she gives the inspiration to create exciting arrangements on your own, with the information included in this text. So no fear, those who must have color photos. :) Ms. Blacklock's book is unlike any other. She TEACHES. I'm sure that is why her books are so renowned. I would recommend this book to anyone who is afraid of even attempting to arrange flowers, whether for themselves or guests. I now can arrange flowers beautifully, without fear, thanks to Ms. Blacklock's book. Enjoy 2 of 2 people found the following review helpful. I wanted a very easy How to type book but this was not it.
