Mina Asadirad : Flowers: My Business, My Pleasure before purchasing it in order to gage whether or not it would be worth my time, and all praised Flowers: My Business, My Pleasure:

0 of 0 people found the following review helpful. What a great resource!By JJI was looking for a book about floral design and this one stood out to me with it's pretty blue cover, lol. It's packed full of helpful information and insider tips that not only give a great perspective on the industry but also are invaluable to developing your style and practice as an aspiring designer. I would definitely recommend this book to friends and family who are interested.

This book was developed to provide for the reader a basic understanding of flowers and their role in the art of floral

design. It will guide you through the creative process of making both the easiest and most popular arrangement styles, using photographs, illustrations, diagrams, and comprehensive step-by-step instructions.
